Description

When it comes to winning chequered flags, no other personal watercraft has dominated the Australian and World Pro Stock race scene like the Yamaha GP SVHO (Super Vortex High Output).

Pro Stock racing, also known as the 'Manufacturers Class', provides the best comparison of out-of-the-box performance of each manufacturers race ski offerings, with the GP SVHO the undisputed champion over the last decade. Working closely with the world's leading pros, Yamaha's high-performance engineers have continually refined the capabilities of this supercharged craft to ensure another podium winning year.

If racing isn't your thing, then the GP SVHO also offers plenty of versatility with three-up riding, towing and the ability to attach Yamaha's RecDeck platform with add-on fishing and lounge accessories, taking your on-water experience to the next level.

This performance craft comes with a tilt-adjustable race inspired handlebar design, Connext helm control with multi-colour LED display, factory installed Yamaha Bluetooth enabled audio speakers, the industry’s first Auto Trim function with Cornering Control and Launch Control modes, and a race designed intake grate and jet pump for class-leading acceleration.

Whether it's bragging rights over your mates or chasing podium finishes, the GP SVHO is guaranteed not to disappoint.Technical Specification
