Description

The 2026 Yamaha VX Cruiser offers premium features combined with Yamaha's award winning and lightweight TR-1 1050cc marine engine.

With Yamaha's lightweight and strong NanoXcel® hull and deck, and the latest cutting edge technologies, including built-in speakers, this watercraft delivers on all accounts.

Above the water line the VX deck delivers improved rider ergonomics and comfort with deep and wide self-draining footwells and a seat profile that is 4 centimetres narrower than its predecessor. This seat design improves knee grip and overall comfort, especially for smaller size riders.

The dashboard comes with a 4.3” Connext LCD display with customisable speed and PIN security controls, a multi-mount system for attaching your favourite digital accessories, a user-friendly and water-resistant storage space for packing all your gear and a feature packed glove box with charging ports and LED lighting.

The VX Cruiser comes with factory installed Yamaha audio speakers and upgraded Connext display screen, which includes a music tab and call and text notifications.

If you are looking for a top-of-the-line, full-featured, lightweight and fuel efficient mid-sized personal watercraft package, then the VX Cruiser is the WaveRunner for you.
