Year	2026	Category	Boat Engines and Outboards
Hull Style		Hull Type	
Power Type	Power	Stock Number	VF150LA
Condition	New	State	Victoria
Suburb	DANDENONG SOUTH	Engine Make	

Description

Yamaha’s VMAX SHO (Super High Output) four-stroke engines have been designed to be the lightest, fastest and smartest high performance engines on the market. Originally developed for the US Tournament Bass Boat market, these extremely powerful motors are ideally suited skiing, boat racing and a whole range of other shallow-hull water sports. The 2.8 litre VF150 engine not only achieves exceptional power outputs, but delivers an incredibly efficient, clean and quiet performance that uses up to 40 percent less fuel than traditional carburetted two-stroke engines. Their streamlined design conceals a 16-valve double-overhead cam, variable camshaft timing and electronic fuel injection, delivering the exhilarating hole shot and top speed of a two-stroke, with the efficient advantages of a four-stroke. For a low weight and incredibly powerful all-round high performance platform, look no further than the VF150.Technical Specification
HeightL: 516 [20.3] | X: 643 [25.3]
WeightL: 218 | X: 222
Engine4-Stroke, 16 Valve DOHC Direct Action In-line 4
Displacement2785.0
Bore96 x 96.2
Max RPM5000-6000
LubricationWet-sump
